Organisation of national workshops, blended-learning course and multiplier events

At the end of the project implementation, partners are planning and already organising the following events:

1. National workshops run by the participants of the training activity in Ljubljana, who will transfer the knowledge they gained to adult educators from partner countries
2. Blended-learning course consisting of a workshop with a trainer, self-study and experimenting with project products
3. Multiplier events organised in every project country aiming at promoting the project results among the target group.

If you are an adult educator searching for ways to up-skill - visit partners' websites and social media and take part in the events!

Last transnational project meeting

On 13th-14th of October 2022 OIC Poland Foundation hosted the last transnational project meeting in Lublin, Poland. This time partners focused on fine-tuning the existing materials and closing the activities they have been implementing throughout the whole project implementation period. They were discussing the milestones they have achieved and explored the beautiful town.

We are happy to be a part of project LearnersMot2 and to be able to share our knowledge and experience with other people! We hope to see you soon in other projects!
